THE death of Alexandrina Victoria, Queen of Great Britain and Ireland and Empress of India, will be handed down to history as closing the career of the greatest and gentlest Queen that ever ruled over the destinies of a people. Her reign of sixty-three years, when contrasted with that of the Kings and Queens of England who preceded her from the ninth to the nineteenth century, has been one of moderation and has won for her the admiration of the civilized world. As a Queen and a mother her equal has yet to be produced by future historians.

THE GRAND JURY.

Makes Its Report and Is Discharged.

The Grand Jury for 1900, after having filed its report in the Superior Court of this county, was discharged from further service last Thursday afternoon by Judge Burnett. The jury was composed of the following citizens: Henry G. Hahman, Santa Rosa, foreman; Thomas B. B. Tuomey, Sebastopol, secretary; David Hetzel, Guerneville, David N. Craig, Pennings; W. H. Grove, Windsor; Franklin Watriss, George O. Campbell, John N. Dowdall and Granville S. Harris, Sonoma; W. S. DeTurk and J. L. Winans, Petaluma; M. V. B. Hooten, Mendocino; Alexander Ragle, Sebastopol; W. S. Vaughan, Washington; N. E. Marcell, Dana B. Bremner, Rayford W. Peterson, A. J. Atchinson and Robert A. Forsyth, Santa Rosa.

The report, after reciting the fact that two criminal indictments had been found, makes the following recommendations:

"We have inspected and examined the various offices, county hospital, jail and other buildings, and in connection with our expert's report, beg to submit the following: "In inspecting the county hospital, we find that the present help is entirely insufficient and we would therefore most urgently request the honorable Board of Supervisors not to neglect the recommendations of this grand jury, as they have done with those of former grand juries. "Among the various recommendations, the most important is additional nurse hire, as we deem the present help entirely inadequate for the care of the patients day and night.

"We further recommend a thorough renovation of the hospital and kitchen connected thereto; and for preservation of the various buildings and in the interests of economy, we advise painting. This work could be done largely by the inmates.

"We would also recommend that the State law be complied with in reference to the hanging of doors on public buildings. We also think that the present system of heating could be improved and very much lessen the expense.

"A careful examination in connection with the report of our expert, convinces us that the auditor and recorder's office should be separated; and for convenience, that the auditor should be permanently located at the court house. We, therefore, earnestly request the honorable Board of Supervisors to immediately take such action as they may deem proper to consummate the recommendation.

"We also note the necessity of a cabinet suitably arranged and constructed for assessment blanks for use in the county assessor's office, and recommend its purchase.

"We also suggest the propriety of providing safer means for the care of election returns in the clerk's office, and we see the necessity of additional room for the numerous records and indexes.

"Complaints were also entered as to the manner in which the janitors perform their duties. We respectfully refer to our expert's report as to the manner and efficiency with which the various offices have been conducted.

"Coinciding with the expert regarding attachment of vouchers to all bills of supervisors while acting as road commissioners and for sprinkling of county roads.

"And we further deem it right and proper that both the auditor and the treasurer be compelled to keep separate accounts of all school funds as prescribed by the code and recommended by our expert. Now, in conclusion, we desire to especially commend the able and thorough manner in which our expert, Frank B. Cornue, has performed his work. 1899.

A Birthday Greeting and Lament.

BY BENJAMIN WEED.

BIRTHDAY GREETING.

Most noble Queen of Britain's isle,
We read thy glory in the smile
That wreathes each loyal English face
Upon this day thy name doth grace.

And we have grown to love thee, Queen,
As one whose heart is ever green,
Like this high time of joyous May,
And this its crown, its festal day.

For thou art queen, beyond the crown,
In those great virtues of renown
That give to womanhood the strength
To win our honor to its length:

A Queen the world has learned to love,
A Queen is worthy of its love,
A Queen to whom I give in fee
This simple strain of minstrelsy.

May 24, 1899.

LAMENT.

GREAT Britain, grief has stricken thee;
And all the gloom of sad lament
That bides within each continent
Is wailing o'er the troubled sea.

Around thy sovereign isles to weep,
As finding there, amid the waves
That wash thy most heroic graves,
A voice as anguished, full, and deep.

No dirge of instruments, though wrought
Of yore by Merlin for the King,
Unto thy lowly bier can bring
A grief with which the world 's distraught.

But winds, have harrowed all the past,
Have felt each cry of joy and pain,
Must beat upon thy sounding main,
For thee to know the love thou hast.

A PETITION is in circulation in Sonoma asking for the disincorporation of that town. The INDEX-TRIBUNE opposes such action, and we think it is right in doing so. While it costs something to maintain town government, it would cost more in loss of prestige and the conditions that make the place desirable for homes than the present expense amounts to.—Santa Rosa Republican.

A DISPATCH from Washington under date of the 22d instant says: It is no longer a secret that Representative J. A. Barham, First California District, whose term expires March 4th next, is the choice of the California delegation for United States District Attorney to succeed Frank L. Coombe, Representative-elect, First District.

Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it doesn't, it don't cure. It never does harm.

The genuine has this picture on it, take no other.
If you have not tried it, send for free sample, its agreeable taste will surprise you.

CITY OFFICIAL PAPER.

EXCITING COMBAT WITH A WILD CAT.

It Took Six Stag Hounds to Dispatch the "Crittter."

An exciting encounter, with six stag hounds on the one side and a ferocious wild cat on the other, recently took place on the Goldstein ranch, located in the mountains five miles north of town. The animal, driven from its lair by hunger, was prowling around a remote part of the ranch in quest of prey. The hounds got on the scent of the "varmint" and brought it to bay in a open piece of ground. Then commenced a combat for the mastery. Although it was six to one, the wild cat held his own against the hounds for a long time, and would undoubtedly have come off the victor had not Florento Nicolini, an employee, appeared on the scene armed with a club. The "critter" was having things pretty much its own way, although at times the whole pack of hounds would make a combined attack on the animal, whose rage knew no bounds. Seeing that the dogs were getting worsted in the scrap Nicolini tightened his grip on the club and went to their rescue. Fortunately he succeeded in stunning the wild cat with a blow on the head. The hounds then dispatched the animal which was the largest ever seen in these parts.

FINED TWENTY DOLLARS.

Sequel to the Honeymoon of a Trespasser.

Filipo Rosaio is a merchant in the Latin quarter of San Francisco. He occasionally visits friends in this valley and generally brings his gun along with him to help pass away the time. It was while he was on one of these periodical visits, just after the New Year, that he shouldered his shot gun and sallied forth for a day's sport. Disregarding the "Notice to Trespassers," which are posted in many places on the Spreckels ranch, he entered upon the premises and commenced blazing away at everything in sight. Foreman Dalzell ordered him off the place, but was defied by the trespasser. The foreman thereupon came to town and swore out a warrant for the arrest of "John Doe," as Rosaio was unknown to him by name, and on January 5th the warrant was placed in the hands of an officer, but Rosaio could not be found for the good reason that he had returned to San Francisco.

Lately Rosaio was married in the metropolis and with his bride again made his appearance in the valley to spend his honeymoon on the ranch of a friend a short distance from the Spreckels place. Monday he was seen and recognized by Foreman Dalzell and the warrant was hunted up and given to Deputy Sheriff Ryan for service. The officer found his man driving along the county road with his bride, placed him under arrest and brought him before Judge Cheney. Rosaio, plead guilty and his honor imposed a fine of \$20 or the alternative of twenty days in jail, the lowest penalty allowed by the statutes. The fine was paid and the newly-married man and his bride a few days returned to San Francisco in anything but an amiable mood.

Summer Boarders.

THE California Northwestern Railway Company will issue a new edition of "Vacation" next month. The object of this publication is to attract to this valley and other sections along its line of railway people in search of rest and recreation during the spring and summer months. Accommodations must be assured for these people in advance and in order that all who come may find desirable boarding places at public resorts, on the farm and in the homes of our people, the railway people will again issue their neat little pamphlet of "Vacation." This will contain the names together with the location, etc., of all those who desire to take summer boarders. The California Northwestern make no charge for the advertising, and as Mr. Ryan, the general passenger agent of the road, aptly remarks in his address, which will be found in another column, "You furnish the accommodations and we will try and furnish the people." Those who did not take summer boarders last year, but who will do so this year are requested to write to the company prior to February 10th, stating location, distance from railway station, postoffice address, charge for board, number to be accommodated, etc.

The efforts of the California Northwestern last year to bring visitors into this valley by this means was a great success and thousands of dollars were spent among our people by these temporary residents. We would advise those who can conveniently do so to make it a business to accommodate these visitors. It will not only prove a source of revenue but will do much to make our valley known to the outside world as a health and pleasure resort.

Revised City Ordinances.

The last publication of the revised ordinances of Sonoma, recently passed by the City Trustees, appear on the first page of today's paper. They are now in full force and effect and will no doubt be enforced to the letter. The only objection that has so far been made to them is that part which puts a tax on the nicker-in-the-slot machines. These machines for the most part are owned and were set up in this town by a Napa man who receives a percentage of their earnings.

Deafness Cannot be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. THE CITRUS FAIR.

Cloverdale to Surpass All Previous Efforts.

The enterprising people of Cloverdale are working with a will to make their Ninth Annual Citrus Fair surpass those of all previous years. The Fair will be held under the direction of manager Tom B. Wilson and a Board of Directors. These annual fairs of our sister town have done much to prove to the world that the climate of Sonoma county is as well adapted to the cultivation of citrus fruits as the much boasted citrus belt of Southern California. A visit to the Fair this year will amply repay everybody interested in the cultivation of the soil to say nothing of the pleasure of witnessing one of the most unique and beautiful sights ever seen in this part of California.

The Board of Directors of the Fair met last week and appointed committees on invitation in every town in this and Mendocino counties. Those appointed for this valley are as follows:

Glen Ellen—Harry Weise and Chas. J. Poppe.
Sonoma—H. H. Granice and Robt. A. Poppe.

TEACHERS' INSTITUTE.

To be Held the Second Week in April.

Miss Minnie Coulter, County Superintendent of Public Schools, has named the second week in April as the time for holding the Teachers' Institute of this county. The place for the holding of the institute has not yet been decided, but it will be either Petaluma or Santa Rosa. The teachers themselves will decide as between the two places. The former place is holding out all sorts of inducements to secure the prize.

Miss Coulter will issue return postals to every teacher in the county asking their preference in this matter. They are at liberty to express a desire that the institute may be held at any place in the county. The place receiving the largest number of votes will get the institute. The result of the vote will not be known for several weeks. Among the features of the institute will be a lecture by David Starr Jordan of Stanford University.

Another New Steel Bridge.

The Southern Pacific Company has been engaged the past seven months in replacing all its bridges in this valley with modern steel structures. One has been constructed at the crossing of Sonoma creek near Schellville, another near Madrone station and the bridge builders of the company are now engaged in replacing the wooden bridge which crosses Sonoma creek near Kenwood with one of these modern steel structures. These bridge improvements are being made by the Southern Pacific Company with two objects in view—safety and rapid transit between Napa Junction and Santa Rosa.

Woodmen of the World.

Ellenwood Camp, No. 487, Woodmen of the World, Glen Ellen, will give an invitation ball and banquet at the Mervyn Hotel this evening. We acknowledge with thanks an invitation to be present. The "wood choppers" of our sister town have a flourishing Camp which is constantly receiving new accessions to its ranks.
